The EPIC (Employee's Perceived Impression of the Coworker) Index score is the average of ALL the questions asked about you and can be considered to be your general score in the system.

What is a Good EPIC Index score?

Simple Rule of Thumb to Read Your Scores:

- Below 5 is really worrisome. Address it immediately!
- 5 to 7 has the most room for improvement.
- 7 to 8 is a well-rounded overall score.
- Anything above 8 is outstanding!

“Be EPIC. Today.
Tomorrow. And
